

KN 303-P DIGITAL TEMPERATURE CONTROLLER

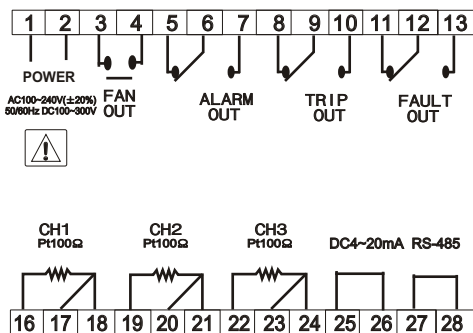

- Free voltage
(AC100~240V(±20%) 50~60Hz, DC 100~300V)
- 3 sensor input(Pt100Ω)
- Operation setting function for each channel(run/stop)
caution:"stop" selected channel is not displayed
- Program type function
(Setting value)
- Temp, max storage function for each channel
- Data storage function
- Fan auto / manual function
- Channels scanning
SCAN : ch1-2-3 scanning(2 sec)
AUTO :automatic hottest scanning
MAN :manual scanning
- Scan time setting function(2~10 sec)
- Outputs delay time setting function
Fan (0.1~6.0 sec)
Alarm, Trip (0.5~10.0 sec)

SPECIFICATION
